PROVENCE  
SAN  
SEBASTIAN  
COLLECTION  
NICKEL SATIN

The Provencal style conveys a feeling of well-being in a warm and natural environment, taking the imagination to those marvellous houses where the traditional touch works so well.

As if time stood still, the Provencal style houses mix harmoniously natural materials like stone, tiles, brass and wood, evoking a simple and relaxed country lifestyle.

At FEDE, we fully identify with this style and we have created a special range including a new finish: the white décapé for the frames and the rotary handle from our well known switch collections: Barcelona, Madrid and San Sebastian. We manufacture this finish with a hand-painted brass base. Its artistic and exclusive value captivates us. Every frame is unique!

## CELLER DE CAN RODA BARCELONA SPAIN

We have discovered the perfect pairing: wines from CELLER de CAN RODA (D.O. ALELLA) with switches and lighting created by FEDE. The beginning of 2015 deserves a toast in a unique setting and with an exceptional wine...

We have enjoyed the beauty of the natural surroundings of CAN RODA, the warm autumn colours, the suggestive aromas from wines and the enchantment of its authentic décor, pampering every detail ...

Its charming Music Room takes us back to a different time, full of memorable evenings... After this incredible experience, we feel really inspired to present you a new icon: "Belle Époque", our latest collection of switches.

HOTEL  
CHÂTEAU  
LE CAGNARD  
CAGNES-SUR-MER  
FRANCIA

« Le Cagnard » is « the Sun » in Provençal.

Built in the 13th century, Le Cagnard is an exceptional stone dwelling perched on the ramparts of the medieval village of Haut-de-Cagnes.

Its history is closely tied to that of the Château Grimaldi, which dates back to the 14th century: the guard room in particular, with its arched fireplace, is evidence of its medieval heritage, a time during which knights protected the village and its château.

# KOLODEJE CASTLE PRAGUE CZECH REPUBLIC

The earliest recorded mention of the fortress in Kolodeje is from the year 1346.

The Castle Kolodeje was rebuilt in the second half of the 16th century into a renaissance palace, which still had a strong initial high round tower and a dominant position over the valley.

Another major reconstruction was in the years 1706 - 1712 in the baroque style - three-winged building on the U-shaped ground plan with the court, which is surrounded by farm buildings. The author of the reconstruction is considered the Italian architect Domenico Martinelli, inside the castle decorated stucco Santini Wiener Busse.

## BARCELONA COLLECTION NICKEL SATIN

The new BARCELONA Collection is noted for its elegance and sobriety, with exquisite designs made of the highest quality brass to ensure maximum durability. This new range is the first choice for interior designers when planning modern and minimalist interiors.

This distinction comes not only from superior aesthetics but also from our technical expertise; our dimmer and rotary switches, for example, are extremely compact. Rotary switches allow integration of signalling LEDs in a choice of 3 colours: blue, amber and white. This solution is especially indicated for the contract sector.
